No more Scab in Sheep.

The undersigned an old sheep farmer in the south of this province after many years of study in the pernicious infirmity of the scab, has at last discovered an infallible remedy against a sickness that in the body where it generally breaks out likea storm resisting all the remedies that to this time have been discovered.

This specific so simple in its application as great in its result, is preferable to all invented until now, it is cheaper than tobacco, and free from poisonous substances contained in all other remedies before invented.

With only one stroke of my specific there is sufficient for the Scab of 800 or 1000 sheep, and at the low price of $ 100, I will facilitate all sheep farmers to restore their sheep in a perfect state of healthiness to make known this remedy and induce farmers to prove it, I have determined to sell small packages of one $ at $8 which I hold at every one's disposition who wants to prove its infallibility.

Instructions for its application will be given in the deposit of specific against the scab.

Consumers of Ink.

The undersigned begs to inform the highly respected community of this city and the country, that he has established an

INK MANUFACTORY.

No. 116 Calle Victoria.

And is prepared to sell as good Ink, as any made in any part of the globe, and warranted to retain its beautiful jet black color which it has at the moment when used, at 50 p% less than the same can be bought at any other house.

People under this impression, the they pay three 800 mc. for a quart bottle of English Ink, can have the same proved, that most of the Ink sold in England, is made in this country, and imposed upon the public as such. But I am not ashamed to put my own Name on the labels, being fully convinced that my Ink is of a much superior quality, and I do even more virtue than most of the Inks.

I—It is of very rich black at the moment when used.

II.—Retain its color.

III.—Flows freely off the pen.

IV—A preserver of the eyes to those, who have much to write at night because they need not to force their eyesight, to see what they have written.

For the reasons explained, I hope that my prejudice generally entertained against Home Manufacture will be laid aside, and all I ask is, to try the same which will be a benefit to the buyer, and the country, in assisting Home Industry.

WEDNESDAY, MAY 20, 1868.

THE 340 $ DOUBLOON.

Congress—Senators.

The Chamber met yesterday, D. Marcos Paz in the chair.

Sr. Lvarello's concession for navigating the Vermejo and Pilcomayo rivers was ratified and the Bill passed by the Deputies, for abolishing the hitherto imaginary doubloon of 340 $, was handed in for discussion.

The Finance committee advised the adoption of the law with an amendment *postponing its enforcement* until the conclusion of the new Custom tariff. This addition was made to the original project of Government, by the committee in the other Chamber, where it was lost, by a large majority. M. M. Fregueiro and Gonalez supported their preconceived article [3] with much vigor, alleging the prejudice to be inflicted on the mercantile body by an instantaneous reform of the tariffs.

Vessels arriving to-day in port would be taxed to morrow with 35 per cent increase of customs (conveyed in bills) ere time the provinces could not hasten their march to discharge cargo before the sweeping change came into force, lieves goods in deposit could not be cleared in time to escape this ruinous alteration in tr. reactions already concluded.

Sor Elias (Entre Rios) strongly advocated the immediate abolition of this erroneous calculation of 340 dollars to the doubloon.

Gen. Madariaga ridiculed the idea of having tender regard for speculators. The Chamber should be above such petty considerations as a few vegan pedlars.

Sor Gonsalez protested against this language.

Sor Flores declared the merchants were wide-awake having begun to empty the deposits since it was first talked of changing the law.

Dr. Alsina opposed the amendment, seeing the terrible sacrifice of public revenue, complained of by the Provincial Government. If private parties were exposed to injury, the Executive would probably dictate some saving disposition, such as exempting all goods for which permits may have been taken out. The House had to choose between a certain loss sustained by the Treasury and public servants, and doubtful injury supposed to result to some commercial speculators. Moreover the Executive had full power to regulate the action of the law.

Sr Navarro thought the merchants had gained too much by the false standard of 340, and the present bill would only cut short an evil, not inflict one (His further observations were very tiresome)

Sr Fragueiro stated a million silver dollars' worth of goods was at present in deposit

Sr Gonzalez sr'gued that the duties were greatly increased last year, also the public salaries, on the understanding to counterbalance the decimal type of 340 to, the gold ounce. So that neither the former were undue gainers nor the latter losers. And in all changes of contract it was the practice to give an interval for the change of calculations. Much more so now as the change proposed was no less than 36 per cent.

Sr. Urburu condemned the late law, as creating differential duties between B. Ayres and the Upper provinces. Here the doubloon was put at 340 $ into, whence in Salta it was demanded in specie.

The vote was put, for the amendment.

Ayes 9—Noes 17.

Sor Frias then proposed an amendment, postponing the change of calculation, for 15 days, which he, however withdrew, at Dr. Alsina's request.

The law having passed its 2nd reading will come into force as soon as sig A to the Executive, probably to-day A proclamation was read from the Finance minister requesting the consolidation of the floating debt (2 millions silver) which was sent to committee.

THE FLORES CAMPAIGNERS.

Our native colle-gues have circulated such monstrous reports concerning the Oriental invasion that some glimmering of the real state of affairs will surprise the Argentine Government and many sympathisers of the filibusters.

The inhabitants of the neighboring republic are unanimous in condemning Flores, and some foreign residents have declared their willingness to give fifty doubloons each for his arrest. Even the Scotch Colonel Mundell, a sworn enemy of the Quinteros politicians, will not join the rebels, finding nothing reprehensible in the Government of Berro. The feeling is universal, that the Banda Oriental never was more favorably circumstanced than under the actual administration, that immigration is flowing into the country, that industry was making rapid *strides*, and that all these happy prospects have been temporarily blighted by the machinations of political reformers.

An immense quantity of cattle has been seized and carried across the Brazilian frontier, and this is the only fact of arms performed by those liberators who receive such unlimited praise from Argentine journalists. Several 'Colonels' who would have taken up arms against the late President Pereira refuse to march against the present *confessive regime of Berro, and it is* certain that Flores met with few adherents, until Brazilian and Correntine adventurers flocked to his banner.

The movement on Salto was an utter failure, and we are credibly informed that when Lamas sallied forth to meet the filibusters, the latter had dis appeared. This is accounted for by the illness of their leader who is a very doting fellow, and was happily visited by Providence with a typhoid fever, which obliged his retirement into the city, thus preventing the effusion of in nocent blood. Meantime the followers of this Oriental Catiline, who hope to make their fortunes out of the ruin of the country, are scattered over several departments, causing as much disorder as their co-religionists of Rioja, or the free-booters of the Gran Chaco. It is feared the evil will continue until next Spring, inflicting incalculable damage on the quiet shepherds of Uruguay.

In Fray Bentos, Higueritas, and the adjoining districts, things are very tranquil, and a friend, who arrived yesterday, says those is more talk of Flores in Buenos Aires than beyond the river. Nevertheless ,there is a great demand for foreigners to take charge of property, as it is supposed the filibusters and their allies will respect European settlers. The native peons have been enlisted by Government, although not over-anxious for fighting; the "cauderos" are at a stand still, business is paralyzed, and it is thought nothing will be done for 4 or 6 months to come.

As an instance of the notorious falsehoods stereotyped by the B. Ayrean prints we give the following explanation of that terrible "pronunciamiento" which took place near Rio Negro, said to be a popular revolution.

A "Pulpero" named Ramos had an altercation with a gaucb, which resulted in the death of the latter. Fearing the juvenile fate of justice, he (with 2 peons) escaped to a neighboring thicket, and was at once set down as an ally of the revolutionaries.

The report of Medina's assassination which first took rise near our Capitania del Puerto, is contradicted by a new rumour of the filibusters, that his troops deserted him and he was obliged to escape to Montevideo. We have no positive information respecting him, but make it a rule to believe the exact contrary of any *Tribune* statements.

HAPPY DISCOVERY,

Sandes is found.—Deo Gratias! Let all Argentine patriots entone a Te Deum. Not for the safety of a guerill, cavalry officer, but for the occasion presented to the Government for freeing the republic from some damnatory insinuations, which our enemies have turned to much account.

The case of Tissera is still fresh on our memory. The *Nacion Argentina* and *Siglo* so loudly clamored for justice and investigation on the alleged execution without trial, of that unfortunate man, that we surmised the National Government had taken some steps on the subject. The recent change of shooting Felipe Sa's sonA boy of 17 years, is incredible, and now a splendid opportunity presents itself to clear Argentina from two such stains.

It is impossible the Nat. Executive would present a sword of honor to Colonel Sandes, if the charges emitted by the official paper respecting Tissera were not satisfactorily cleared up.

It is impossible a Christian Government would t eem to approve the murder of a harmless child, for his father's offences.

No ! these are surely calumnies got up by the enemies of B. Ayres, to blast our reputation abroad. A confidential document has received positive proofs of the falsity of such charges, and we only require their publication to confound those who impugn Argentine honor.

CLEARING OUT.

Civilization is progressing amongst us, and it behooves tradesmen to have their eyes open, lest the sudden development should be too much for their feelings. It has been often a subject of surprise to us, that in a city where credit is so easily obtained, some sharpers did not give a practical illustration of the danger it involved. "Lend us not into temptation," is not only a prayer, but an injunction, that we really have no pity for people who allow themselves to be fooled by every new adventurer who visits these shores.

Not long ago a gentleman of engaging appearance, nice dress and ready tongue, arrived in Buenos Ayres, and solved to show us a thing or two, and astonish the natives. No one knew his nationality, and perhaps few countries could claim him as a son. He started a business, which promised to realize a fortune, and lo! in the zenith of his success, vanished from our midst.

His tastes were varied. A few days ago he visited several establisnen's in town in clothes, hats, walkingcanes, tailors, haberdashers, druggists &c. and left each of them a proof of his versatility genius, and impartial tendencies. He requested all to call him in visit on the Saturday, but forgot to wait for their adieux, and when half-a-dozen anxiously sought him, they found the nest deserted and the bird flown. Before them, nevertheless. memeutoes which will long preserve his name green among us, for be it known, even the "Standard" has learned a lesson from the able professor of transmigration.

We regret that he has cast a *Mephistophelian* shadow on the worthy Mr. Eastman's nor M. Demarchi's cheerful cash remove. Even in "the city of sepulchres," he can show them a wrinkle, for he was a "fast" man, such as M. Jaeggli and Divet could not regulate He had a literary *penchant*, being deep in the Greek text, and possessed wonderful powers of acquisitiveness and retention that Moss Mackern might publish his biography as sequel to their Sinbads, with a lesson on *cutting* highly serviceable to tailors.

COTTON VERSUS REVOLUTION.

The "Standard" office was crowded yesterday with cotton votaries.

Sr. Ortiz from San Luis, purposes planting 6000 acres.

Sr. Frias from Cordoba, sends a sack up to that province to plant on his property.

A German house of high standing, has also taken a large quantity of seed for the Banda Oriental.

Sr. Zapata has taken two arrobas for his estancia in the Banda Oriental.

Samples are coming in to us from all quarters.

The Cotton Supply Reporter from Manchester, received per last packet, has long extracts from the "Standard," and speaks in unmeasured terms of Buenos Ayres and the "Standard."

The only enemies cotton has in the River, Plate, are Peñaloza, Flores, and the "Tribuna."

Cotton knows no politics.

Viva Cotton!

EDITOR'S TABLE.

The particulars which we publish al regarding the diplomatic meeting, and the flat denial which we gave to the statements of those two monster revolutionary journals called Tribune and National, had quite an effect through town yesterday. At the Crockery Club, the attendance was unusually great. The "Standard" was translated through and through; Argentine troubles were freely discussed, and there was an unanimous expression of opinion against Tribune politics. The Flores business has got us into a row with the native newspapers, but we will not flinch from our position. The invasion of the Banda Oriental has been one of the most unfortunate occurrences for Buenos Ayres, and the connection of a certain journalist with the National Government, has done Gen'l Mitre's administration more injury than he is at present aware of.

The debate in Congress on the pension to the widow of Major Arzac was rather interesting, and goes to show the feeling which exists against paying large salaries to old fogies of generals, who have little to claim upon the country's gratitude.

It is a notorious fact that one of the principal causes of the present disturbed state of the interior, is the great number of unemployed officers and military men scattered through the republic. To pay them their salaries would run poor Mr Sarsfield into the Debtors' Prison; and yet, to leave them without employment endangers the peace of the country. What to do with them is the question.. We say, make cotton planters of them all; give them land and seed, and in a few years they will find it a more lucrative business than even revolutions.

Our "hablar fuerte" friends are again upon us. We are requested to call public attention to the present critical state of affairs, and the growing popularity of revolutions. We are asked to demand of General Mitre firmness, and a strict observance of the Constitutional guarantees, which have much popularity amongst all well meaning people. We want peace at any price, and it is to be hoped that the President of the republic will give a decided proof of his disapprobation of the present revolutionary principles which some of his own employees are so constantly preaching. We have steadily supported Gen. Mitre, and would regret sincerely that any cause should arise which would deprive us of continuing that support, but our mission is peace and industrial advancement, and no Argentine influence shall make us change our tactics. We regard all insurrection as an revolutions, no matter what may be the pretext, as highly injurious to our adopted country, and the Minister who thinks at them, or the Secretary who sympathizes with them we feel our bounden duty to drag before the public as the worst enemies of the country. We know it for a fact that not the slightest complicity exists between the Nat. Government and Flores, but will the public believe it? so long as a certain gentleman is subsecretary, we know that Gen. Mitre has Buenos Flores' escape from his country to attack a neighbouring friendly Republic, but who, on reading the "Tribuna" will believe that such is the fact. The "Standard" influence may at present be unable to compete with the "Tribune," but the peace interest, the moneyed interest, the industrial interest of the whole country at large which we represent, will triumph over all. No man knows this better than his subsecretary himself, we tell him "beware."

The Captain of the Port of Buenos Ayres has succeeded in making himself most unpopular amongst our travelling community. Yesterda y our office was beset ged by merchants and others who had arrived per Libertad. A public officer, such as the Captain of the Port, should make his rules and regulations to suit public convenience, and not his employees. The steamer in question arrived at half-past three o'clock, yet the Government officer did not come on board before half-past seven; and it appears on inquiry, that, according to the port rules, no visit can be made before seven o'clock. As the sworn enemy of all such antiquated regulations, we call public attention to the matter, and trust that either the present port rules in this respect be altered, or the port officer removed

We do not say that at all hours of the night the falus should be in the river; but we insist upon the experience of the public being a little more consulted. For four hours the passengers stood on deck waiting the arrival of the visit ; many gentlemen had to pass the night on deck, owing to crowded state of the boat.

The old story again. No quorum in the house. Formerly the Municipality were the only gentlemen who adopted this negative plan when any important measure was to be brought before them; but now our Provincial legislators have embraced it. We knew of a certain party who spent weeks and weeks in waiting for a municipal quorum, until at last his patience was so exhausted that he gave up his project.

Urquiza's Proclamation is before us in the only way we can make out of it is that it praises the "Nacion Argentina," which it states is the best Spanish paper in Buenos Ayres. We think Don Justo José seems to forget his friends; the "Tribuna" merits some praise surely, it is doing the Governor of Entre Rios more service than all the other papers in town put together; no matter it calls Urquiza all sorts of names, but we all understand such things. The unconditional defender of revolutions and invasions is the best ally General Urquiza can have under the present circumstances. The scandalous language of some Entre Rios newspapers, we should have called attention to; in no country in the known world are such things tolerated, but we are tongue-tied by the conduct of the native papers in this city as regards the Flores' invasion. We can say nothing against the "Litoral" so long as the "Tribuna" cries "Viva la revolucion."

TREMENDOUS INVASION.

Our readers will be unprepared for the great news of the day.

In one of the most influential London financial papers—the *Money Market Review*—we read that it is proposed to ship several thousands of the starving Lancashire operatives to the Argentine republic, which is now regarded in Europe-owing to the vacations of the Standard—as the El Do ado of South America.

Should General Mitre's Government will not be led by the Tribuna, but will instruct the Argentine consuls abroad to offer every inducement to carry out the scheme.

Five or 600) of our fellow countrymen drafted into the interior with cotton seed forming implements &c. what a magnificent field! Argentina would have no more to fear from either the Indian or the Bandit Peñaloza, reign would be over.

IDAHO.

The Territory of Idaho, formed at the last session of Congress, and which has hitherto been generally known as the Shoshone country, embraces the portion of the Washington Territory east of Oregon, and all of Nebraska and Dacotah west of the 104th line of longitude and between the 42d and 49th parallels of latitude. It is more than twice the size of the Oregon, and three times that of Virginia. The gold and silver bearing region in the vicinity of the Snake river and its affluents will attract the largest population, and it is here that the principal mines are worked. The "Standard" influence may at present be unable to compete with the "Tribuna," but the peace interest, the moneyed interest, the industrial interest of the whole country at large which we represent, will triumph over all. No man knows this better than his subsecretary himself, we tell him "beware."

The Territorial Legislature will consist of a Council of thirteen members and a House of Representatives of twenty-six members. The Governor and Secretary will be appointed by the President, and the Legislature will meet annually at the capital, which is to be located by the Governor. The Governor is Commander-in-Chief of the militia, and has the veto power. The Legislature has the power to locate the capital, and to establish all necessary territorial institutions. The Governor and Secretary are to receive the same salaries as those of the Governor and Secretary of Nebraska. The Legislature is to receive $4 per day during the session, and $4 for every twenty miles travelled to and from the seat of government. The Governor is to be ex-officio superintendent of Indian affairs, and the Secretary is to be ex-officio Secretary of the Board of Commissioners. The Governor is to receive $2,500 per annum, and the Secretary $1,800. The Governor is to appoint all the officers of the Territory, except the Secretary, Treasurer, Auditor, Librarian, and Superintendent of Public Instruction, who are to be elected by the people. The Governor is to appoint the Judges, Marshal, Attorney, Surveyor-General, Collector of Customs, Assessors, Collectors, Postmasters, Superintendents of Mails, Mail Agents, Commissioners, Clerks, Justices of the Peace, Constables, Notaries Public, Coroners, Sheriffs, Recorders, Surveyors, Inspectors, Weighers, Gaugers, Measurers, Appraisers, Storekeepers, Pilots, Captains of Vessels, Superintendents of Lighthouses, Keepers of Lighthouses, Light-ships, Beacons, Buoys, Public Moorings, Harbor-masters, Wardens, Clerks, Boatmen, Superintendents of Life-boats, Life-boat men, Firemen, Measurers of Timber, Meters of Coal, Messengers, Porters, Laborers, Janitors, Watchmen, Pound-keepers, Field-drivers, Fence-viewers, Haywards, Surveyors of Highways, Overseers of Highways, Commissioners of Highways, Trustees, Clerks, Directors, Auditors, Treasurers, Managers, Engineers, Firemen, Conductors, Brakemen, Porters, Messengers, Drivers, Hostlers, Agents, Clerks, Commissioners, Draughtsmen, Inspectors, Messengers, Janitors, Watchmen, Doorkeepers, Gardeners, Aides, Clerks

EL ARGENTINO.—A new week-ly paper with this title will be started on the 24th instant; according to the programme it will be political, commercial, religious and literary.

This reminds us that we have not received the "Revista del Plata," which ought to have appeared the 15th inst., perhaps Messrs. Nawen, Viola, and Ricardo, have forgotten the Standard office Belgrano 72.

Another paper is shortly to appear "El Imparcial Español" organ of the Spanish population.

BRAZILIAN MINISTERS. The Brazilian Government is going to appoint a resident Minister to Buenos Orientes, annexed to the Argentine Republic and a charge d'affairs to Paraguay.

FALSIFICATION.—The chief of Police of Santa Fé captured the 6th instant three forgers of license Ayres current money at the requisition of the chief of Paraná.

SOUTHERN RAILWAY.—The Chamber of Deputies, which should have taken this matter into consideration on Monday night, did not meet in sufficient number to form a quorum.

A FAIR REQUEST.—We believe we the "Siglo" is right in asking the Inspector General of arms to send a band of music to the Plaza Retiro on Sundays.

Now the evenings are very short, and the public prefers a walk in this agreeable promenade after High Mass, or at the Cathedral and before dinner, to the short and disagreeable cold evenings.

CLUB BALLS.—The Club Progresso ball is to take place on the 23rd instant, and that of the Club del Plata in the 28th.
